dimension.

WAGNER Tribo lance TL Flexible Manual System

Ergonomic two-hand operation.

Fixed or telescopic shaft version.

Combination with Corona and Tribo.

WAGNER Tribo lance TL

Manual application equipment for highest flexibility

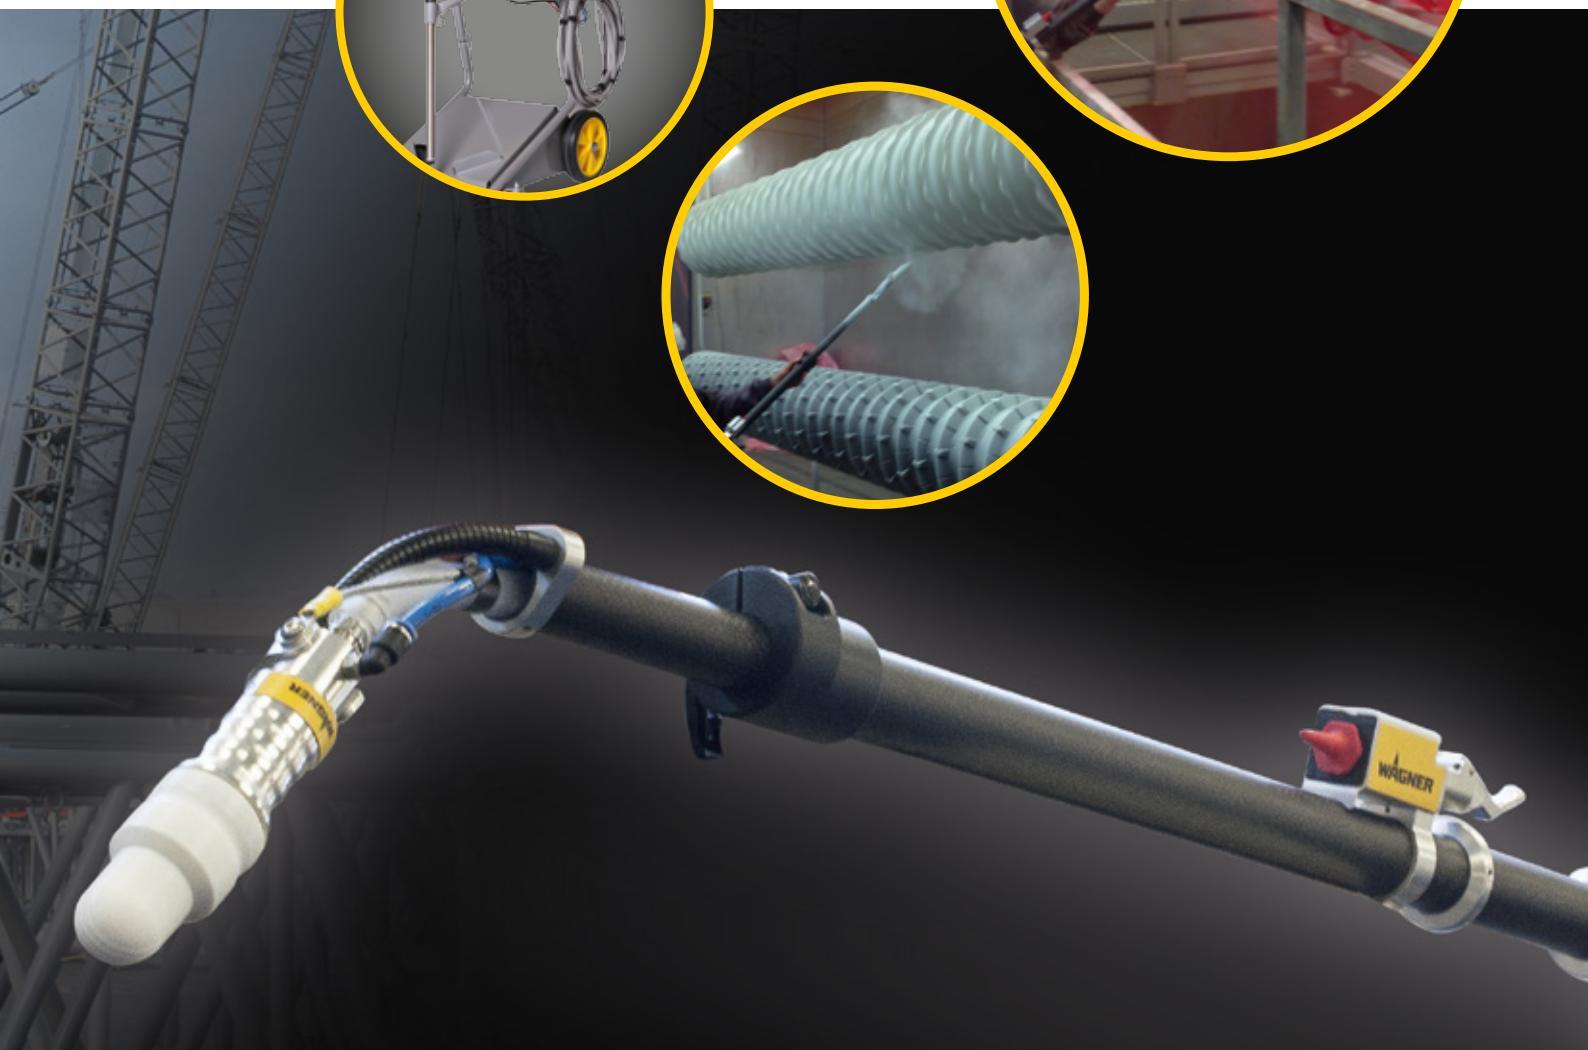

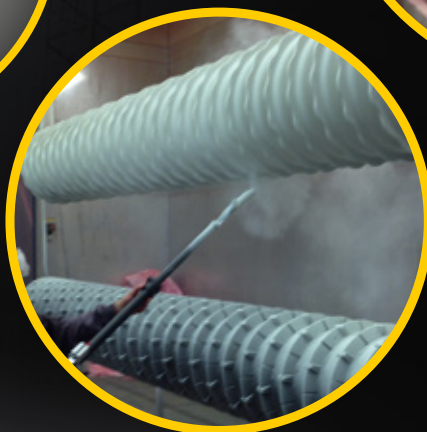

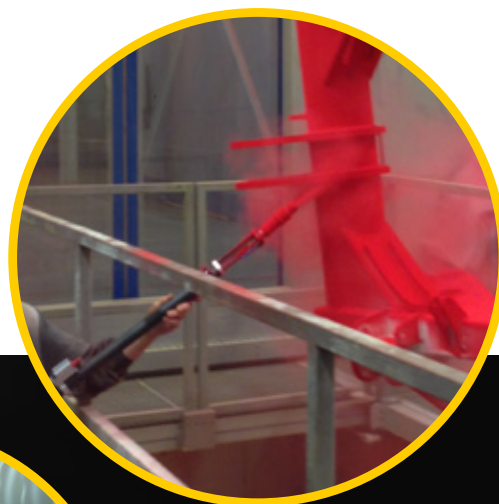

The new WAGNER Tribo lance TL enables an efficient coating of big parts as well as high film thickness to reach strong corrosion protection for individual requirements. The perfect application solution for construction parts with welding seams und recesses.

Low investment - big savings

- 10% more production time per day trough ergonomic two-hand operation & low weight design
- Increase transfer efficiency & reduce coating time by 15% with the 3D flexible nozzle
- Save approx. 30,000€ investment for Ex-proof lifting devices thanks to telescopic shaft with a reach of up to 2,8m
- Maximum flexibility & lowest investment by using Corona application alternating

Unlimited coating possibilities

- Low weight Tribo lance TL with carbon shaft
- Versions with fixed or telescopic shaft available
- Including wireless gun trigger
- Feeding directly from the powder box
- Up to 50 recipes for reproducible coating results
- Optional: Incl. Corona manual gun PEM-X1

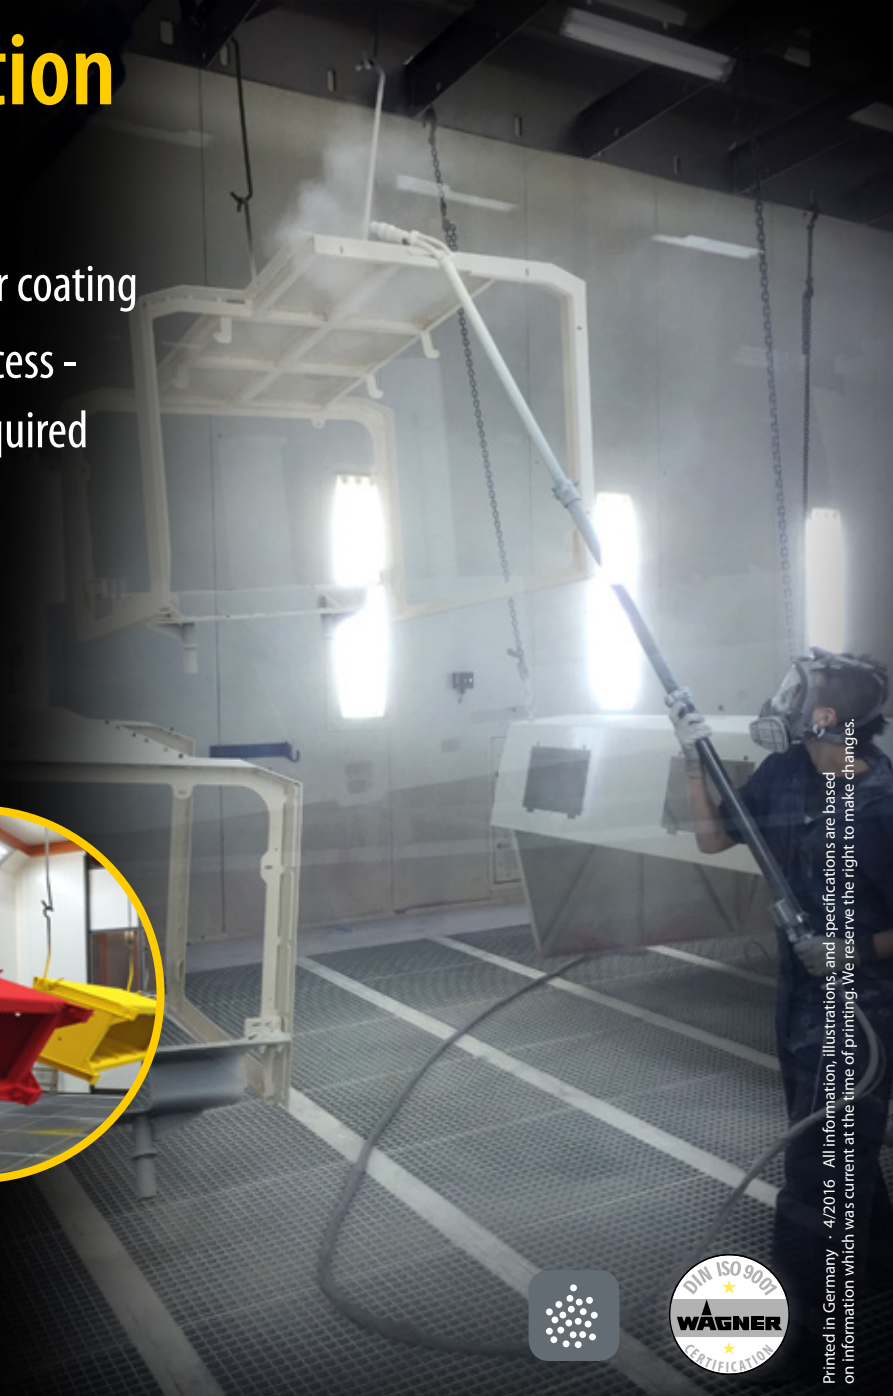

Version Tribo	Lance length	Content
Sprint Airfluid TL 1000	1.000 mm	Airfluid manual unit & TL lance fixed shaft
Sprint Airfluid TL Flex 1800	1.800 mm	Airfluid manual unit & TL telescopic lance 2-piece shaft
Sprint Airfluid TL Flex 2800	2.800 mm	Airfluid manual unit & TL telescopic lance 3-piece shaft

Retrofit packages for Sprint manual units:
Tribo lance TL 1000
Tribo lance TL Flex 1800
Tribo lance TL Flex 2800

Version Corona & Tribo TL	Lance length	Content
Sprint Airfluid C & TL 1000	1.000 mm	Airfluid manual unit with Corona PEM-X1 & TL lance fixed shaft
Sprint Airfluid C & TL Flex 1800	1.800 mm	Airfluid manual unit with Corona PEM-X1 & TL telescopic lance 2-piece shaft
Sprint Airfluid C & TL 2800	2.800 mm	Airfluid manual unit with Corona PEM-X1 & TL telescopic lance 3-piece shaft

Powder application Coat-2-Coat

- Perfect solution for double layer coating
- Avoids intermediate curing process - special powder composition required
